Dear President Marburger,

I received your letter of April 13 through Dean Kwang-Sun Suh of our Graduate School.

I am personally interested in your school, for I know of your great work for the development of a state university on the international level. Especially we are happy about your Korean Studies program, as we are promoting the similar program in our graduate school on the master's degree level.

I would like to extend a cordial invitation to you to visit our campus during the week of June 14-20. As Dr. Myung Oh plans your schedule here in Seoul, I would request him to include a luncheon appointment on our campus.

Looking forward to meeting you in Seoul in June.

Sincerely Yours,

Hoo-jung Joon
