

Memorandum

To: Ann Dowsey, Global Medical Education Office

From: Jeanine Guilbeault, x2-7391, Office of Global Affairs

Subject: Memorandum of Understanding Macau University of Science and Technology

Date: April 28, 2014

Attached is Memorandum of Understanding with Macau University of Science and Technology. This MOU was originally directed to our office from Heather Makiewicz, x42169, Administrative Assistant to Kenneth R. Shroyer, MD, PhD., Department of Pathology.

This relationship was meant for graduate level collaboration with the School of Medicine. Signatures from Macau University of Science and Technology were already obtained when we clarified that the relationship was not going to include undergraduate students from West Campus at this time. As we discussed, I was able to add Dr. Sedler and Dr. Kaushansky to the agreement, and did not submit to West Campus administration for signatures. Please let me know if you would like for me to still obtain the appropriate signatures from the West Campus administration.
